

PRODUCT CATALOGUE

"For your most joyful moments..."

about us

Our company, initiated by our grandfather HALIL ERBEY in 1940 in Bursa Uzunçarşı, underwent corporate transformation and is currently being continued by the 3rd generation manager, 'ORHAN ERBEY'.

Our company, initially operating in the field of Turkish coffee, has expanded its product variety and service network over time. Currently, we manufacture and wholesale distribute over 100 products, with a focus on the main categories of 'fruit-flavored beverages, Turkish tea, and coffee.' Since the early 1990s, our factory has been engaged in fully automated, hands-free closed-loop production, delivering our products across Turkey. Many of our products, predominantly used in the out-of-home consumption channel, stand among the leading brands in their respective categories nationwide.

Since the early 2000s, we have added innovative products targeting end consumers and the retail channel to our portfolio. In this area, we primarily collaborate with local supermarket chains and our distributors. While our company predominantly supplies the domestic market, we also export to over 20 countries.

Our central factory, located in Bursa Yıldırım district, operates in an 8000m² closed area. Additionally, our factory in the village of Ketenli in Rize province engages in the production of tea by collecting fresh tea leaves from local farmers.
